FinCEN Advisory — Cash Structuring (synthetic excerpt)

Advisory Summary. Structuring occurs when a person conducts or attempts to conduct one or more transactions in currency, in any amount, at one or more financial institutions, on one or more days, in any manner, for the purpose of evading currency transaction reporting requirements.

Indicator A. Multiple cash deposits or withdrawals just below USD 10,000 within a short window (for example, 7 days).

Indicator B. Use of multiple accounts or branches to break up large cash amounts.

Indicator C. Customer reluctance to provide identification when a transaction approaches the CTR threshold.

Recommended action. Alerts generated for three or more sub-threshold cash transactions by the same customer within seven days should be investigated and dispositioned with documented rationale.
